UNIVERSITY OF GEORGIA

Grant Development Program Department Head Approval Form

The Owens Institute for Behavioral Research (OIBR) Grant Development Program prepares participants to compete successfully for extramural funding. Please complete the form below to indicate your acknowledgement and approval of the time commitment and early career faculty member's participation in the program.

____ 1. I am aware that _____ is applying to the OIBR Grant Development Program and I am supportive of their participation.

____ 2. I recognize the significant time commitment associated with participation.

____ 3. I understand that participation in the program requires the faculty member submit a grant application as PI through OIBR which, if funded, will serve as management unit.

☐ I will consider the possibility of release time for participation in the program.
(Because of the time-intensive program and commitment required to prepare a competitive grant proposal, we encourage consideration of some release from teaching or service. We understand that departments vary in terms of what they are able and willing to offer faculty participants, but we strongly encourage some release from service and/or teaching.)
